ABOUT MYSELF

I am a student currently pursuing a degree in "Computer Systems and Networks Security" at the University of Milan. I am seeking a curricular internship to complete my academic journey. In the past, I played various team sports: soccer, basketball, and rugby, which helped me understand the importance of teamwork. This has greatly benefited me throughout my education and training, where group work is often underestimated.

EDUCATION AND TRAINING

27/09/2021 – CURRENT Milano, Italy

HONOURS AND AWARDS

02/07/2016
Certificate of Merit in the A.N.A. competition. – Associazione Nazionale Alpini - Sezione di Novara

Certificate of Merit for the contribution offered in the A.N.A. competition "IL MILITE NON PIÙ IGNOTO".
The project's theme was the First World War. Together with my team, we conducted research in the local area. I focused on researching newspapers in the Trecate municipal archive, and along with a teammate, I conducted an interview with a retired military witness of the Second World War, whose father participated in the First World War, to hear his testimony about life on the front during both wars.

HOBBIES AND INTERESTS

Piano

I have been playing the piano since elementary school and continue to do so as a self-taught musician. Music is a great way for me to spend my free time. At the age of 13, I performed at the municipal theater in my hometown of Trecate, where I played compositions by Iosif Ivanovici, Charles Gounod, and Ludwig van Beethoven during an evening dedicated to advanced students.
